

Official Institutional Education Quality Accreditation Survey at VNU University of Law

From 28 July to 1 August 2025, VNU University of Law will host an external assessment team conducting the official survey for institutional education quality accreditation, carried out by the Center for Educational Accreditation, Vietnam National University, Ho Chi Minh City.

Following a successful preliminary survey on 16 July 2025, the official survey will run over 5 days and include a range of activities: on-site inspection, review of supporting documentation, classroom observation, interviews with stakeholders, including leaders, lecturers, support staff, students, alumni and employers, and direct working sessions between the assessment team and the University's units.

Assessment activities will also cover facilities and student support services, including the library, practice rooms, dormitories, the student health clinic, and management software systems, providing evidence of the University's ongoing efforts to improve the quality of its training, research and community service.

Institutional accreditation is both a regulatory requirement and an opportunity for the University to take a comprehensive look at its achievements, as it continues to raise quality and work toward regional and international standards in higher education.
